Suggestions

First of all, there should be regular staff and principle. Secondly, library facilities should be provided to old students and hostel facilities for boys should be there. Thirdly, there should be smart classrooms in the college campus. Campus should be clean mainly, washrooms for students. Management should organize seminars for the awareness of students and parents. Meetings of general body of alumni should be held and there should be a corner for alumni profile. There should also be exposure to students for industrial training. Financial support to be provided to poor students and teacher feedback should be taken from students. Overall suggestion received from different alumni about college functioning is satisfactory.
