

MLSM Career Guidance Cell Placement Notice

Dear Students,

We are pleased to inform you that, we are conducting recruitment event on 05th October, 2018 at Shiva Institute of Engineering & Technology, Chandpur, BILASPUR (HP.), for B-Tech / Diploma-EEE/ECE/CSE/IT, MCA/MSC-IT students of 2017 passed out and 2018 passed out batch. The details are as follows:

Company Profile

Recorders & Medicare Systems Ltd (RMS) is the leading manufacturer of medical equipments or Hospital Diagnostic Equipment Manufacturers in the Indian Subcontinent. Polyrite, the first Indian Polygraph was developed within **the first year of inception in 1975** followed by EEG in the year 1977, wherein we became a part of a select group of 7 EEG manufacturers in the world. Our R&D is recognized by the government of India since 1978. We have 17 regional offices that are manned by over 150 Sales & Service engineers. **RMS** has also extended its market in SAARC region, East Africa, Middle East and Europe through dealers and strategic partners.

RMS is consistently growing by approx. 30%. In the past year Company has launched Multi channel ECG machine, Patient Monitoring system, X-Ray systems, high frequency C-Arm Image Intensifier and further planning to launch High Frequency X-Ray, C-PAP and Biphasic Defibrillator.

RMS strives to benefit the healthcare delivery infrastructure in India and developing countries worldwide by bringing to market high quality, yet affordable diagnostic equipment. The company's philosophy has always been to give its customers the best possible quality at the lowest possible prices. It exceeds customer expectations both in terms of performance and price.

Our Endeavour always is to be NUMBER ONE in terms of quality, specifications and features in any product that is produced in our country. We work on all aspects of a product starting from the drawing board to ensure that we develop, manufacture and sell our products by benchmarking them to the best in the world. As a result we command market share of 70% in EEGs and EMG/EP, 50-60% in Spiro meter and 30-40% in ECG Stress Test. Our R&D division has been recognized by the Department of Science and Technology, Govt. of India since 1978.

Our in-depth knowledge (gained over 37 years) of the healthcare scenario in India and including the dire need for quality products at affordable prices drives us towards innovation in reducing costs without affecting the quality or functionality of our products.

Our goal from this point is to stay abreast of latest technologies and to accelerate business reform; this includes strengthening our marketing power, achieving new businesses, and improving business structure while steadfastly adhering to customer feedback.
